**Use of non-GAAP financial information**

The Company uses non-GAAP measures of adjusted revenue, gross margin, operating expenses, net income and diluted earnings per share which are adjusted from results based on GAAP to exclude certain expenses, gains and losses. These non-GAAP financial measures may be provided to enhance the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes non-GAAP results provide useful information to both management and investors as these non-GAAP results exclude certain expenses, gains and losses that it believes are not indicative of its core operating results and because it is similar to the approach used in connection with the financial models and estimates published by financial analysts who follow the Company.

These non-GAAP results are some of the measurements management uses to assess the Company's performance, allocate resources and plan for future periods. Reported non-GAAP results should only be considered as supplemental to results prepared in accordance with GAAP, and not considered as a substitute for, or superior to, GAAP results. These non-GAAP measures may differ from the non-GAAP measures reported by other companies in its industry.

**The Company's Non-GAAP measures are adjusted for the following items:**

**Adjustment to discontinued products**

These adjustments relate to sales of certain discontinued products or changes in sales provision for discontinued products. These adjustments are inconsistent in amount and frequency and are excluded in the non-GAAP measures as these adjustments are not indicative of the underlying ongoing operating performance.

**Accelerated depreciation, impairment and other charges related to cost saving efforts**

These expenses are excluded in the non-GAAP measure due to its inconsistent in amount and frequency and are excluded to facilitate a more meaningful evaluation of the Company's current operating performance and comparison to its past periods operating performance.

**Amortization of acquired intangible assets**

The Company records expense from amortization of intangible assets that were acquired in connection with its business combinations over their estimated useful lives. Such charges are inconsistent in size and are significantly impacted by the timing and magnitude of the Company's acquisitions. Consequently, these expenses are excluded in the non-GAAP measures to facilitate a more meaningful evaluation of its current operating performance and comparison to its past periods operating performance.

**Other charges**

The other charges primarily include write-off of certain discontinued inventory and expense related to disposed business. These charges are inconsistent in amount and frequency and are excluded in the non-GAAP measures to facilitate a more meaningful evaluation of its current operating performance and comparison to its past periods operating performance.

**Restructuring and other, net**

Restructuring charges and other, net are costs associated with restructuring plans that are primarily related to costs associated with reduction in the Company's workforce, exiting certain facilities and other related costs. These also exclude charges or gains from sale of properties classified as held-for-sale. These costs or benefits do not reflect the Company's ongoing operating performance and consequently are excluded from the non-GAAP measures to facilitate a more meaningful evaluation of its current operating performance and comparison to its past periods operating performance.

**Strategic investment losses, (gains) or impairment recognized**

From time to time, the Company incurs losses or gains from strategic investment accounted under equity method of accounting or records impairments charges which are not considered as part of its ongoing operating performance. The resulting expense or gain is inconsistent in amount and frequency and consequently are excluded from the non-GAAP measures to facilitate a more meaningful evaluation of its current operating performance and comparison to its past periods operating performance.

**Income tax adjustments**

Provision for income taxes represents the tax effects of non-GAAP adjustments determined using a hybrid with and without method and effective tax rate for the applicable adjustment and jurisdiction. It also includes a provisional tax benefit for the re-measurement of the Company's U.S. deferred tax assets at the lower 21% tax rate resulting from the U.S. Tax Cuts and Jobs Act enacted on December 22, 2017.
